Billing

Billing Definition

- نظام شركتنا نظام فاتوره بمعني الدفع مقدم
- ميعاد فواتير العميل مش يتغير مهما حصل اال في حاله ان ميعاد فاتورته في ايام 29 30,

او 31 من الشهر في الحالة دي يتغير بشكل تلقائي ليوم اخر.

- ميعاد فاتورة العميل يحدد بناء علي ميعاد تشغيل الخدمة للمرة الاولي عند العميل
- فتره السماح الخاصة بالعميل بتكون7 ايام مع بداية الفاتورة.
- في حاله امتناع العميل عن دفع فاتوره شهر ما الخدمه ستتوقف لحين سداد الفاتوره حتي ان توقفت ل لشهرين الخط

متوقف(لا يوجد اصدار فاتوره شهر علي فاتوره شهر اخري)

ما هي اسباب زياده الفاتوره ؟

1. Add Extra Quota.
2. Add Static Ip.
3. Visit Request.
4. Router Monthly Fees.
5. Add Items .

ما هو (Add Items).....؟

بتنقسم الي حالتين تسبب زياده فاتوره العميل وهي

- Gab Month.
- Package Upgrade.

Gab Month.

*ومعناها ان العميل امتنع عن سداد فاتوره شهره الحالي فالخدمه توقفت بعد7 ايام من فتره السماح بمجرد انقطاع يمكن للعميل تشغيل الخدمه يومين سماح اخرين من اصل 5 ايام من بعد ال 7 وعند تخطي العميل هذه المده سيتوقف الخط الي ان يسدد العميل فاتوره الخط حتي لو تخطي شهر او اثنين لا يمكن تشغيل الخط حتي الدفع ,وعندما يقرر العميل الدفع ف اي يوم خلال الشهر الاخر بيكون قد تم تسديد الشهر المتاخر ولكن الخدمه بيتم تفعليها من مده الدفع حتي معاد التجديد القادم (**العميل هنا بيتم محاسبته محاسبه جزئيه**) علي وقت تشغيل الخدمه لحد معاد التجديد

مثال:

عميل عنده فاتورة نزلت علي الخط يوم 1 نوفمبر2025 تم سداد الفاتورة يوم 10 ديسمبر 2025 بالتالي الخدمة تشتغل بصوره طبيعية و لكن فاتورة 1 يناير 2025 مبلغها هيكون عباره عن فاتورة مقدمه + 22 يوم • بحسب اليوم اللي اشتغلت فيه الخدمة + الدورة المحاسبية كاملة.

قانون ال gab month

(سعر الباقه / عدد ايام الشهر * عدد الايام المستهلكه)

سعر الباقه: 250 جنيه غير شامله الضريبه

عدد ايام الشهر :30 يوم

عدد الايام المستهلكه:22

183=22*8.3=250/30

اصبح عدد الايام المستهلكه سعرها 183+ مقدم شهر يناير 250 ج

اصبح الناتج الفعلي للدفع 433=183+250

Package Upgrade.

وهنا العميل قرر يعلي (يطلع لباقه اعلي) الباقه في منتصف الشهر لا معاد التجديد فا في حاله تعليه الباقه لباقه اعلي بيتم تغيرها في نفس الوقت ثم يضاف للعميل فرق جيجات (معناها فرق بين الباقه الصغيره الي كان عليها والباقه الكبيره الي بقي موجود عليها) **فا بيتحاسب محاسبه جزئيه علي الجيجات مع اول فاتوره**

مثال:

عميل معاد تجديده بتاريخ 1 سبتمبر دفع باقته وقرر يكبر الباقه بتاريخ 10سبتمبر هنا العميل معاد تجديده القادم بتاريخ 1اكتوبر هيكون سعر الباقه الجديده+فرق الجيجات المضافه

قانون ال upgrade

الباقه الكبيره (جيجات او فلوس) ___ الباقه الصغيره (جيجات او فلوس) / عدد ايام الشهر * عدد الايام المستهلكه

الباقه الصغيره : 290 فلوس بتوفر 200 جيجا

الباقه الكبيره :360 فلوس بتوفر 250 جيجا

عدد ايام الشهر :30

عدد ايام المستهلكه :21

السعر :360-290=70 / 30 =2.3* 21= 49 ج

الجيجات: 250-200=50 / 30= 2 *21=42 جيجا

اصبح عدد الايام المستهلكه سعرها 49 + مقدم الشهر (الباقه الجديده) 360 =409 ل اول شهر فقط بعد تكبير الباقه

العميل يقدر يعلي الباقه مرتين خلال الشهر ويتحاسب عليهم ف اول فاتوره قادمه

خد بالك اولا لازم انبه العميل ان في فرق ايام بفرق جيجات هيتحاسب عليهم محاسبه جزئيه هينزل للعميل علي اول فاتوره فقط(فيما معناها هي فرق الجيجات بين الباقه الصغيره الي كان عليها للباقه الاكبر الي طلع ليها)

وقت ما بيعلي العميل الباقه معاد التجديد مش بيتغير الباقه بتنزل اول الشهر الجديد

في حاله ان العميل خطه موقف مبقدرش اغير الباقه

ولاكن لو العميل نزلت له فاتوره والخط شغال اطلب منه دفع الفاتوره الحاليه واعلي الباقه عادي

اوعي ننسي التحقق من ملكيه الخط.....
